

Visual Perception in Visual Snow Syndrome

Status: Recruiting

Eligibility Criteria

Age: 18 years and over

This study is NOT accepting healthy

Healthy Volunteers: volunteers

Inclusion Criteria:

? Between 18

•60 years old ? Good general physical health ? No history of other neurological disorders or problems ? Fluent in English

Conditions & Interventions

Conditions:

Vision & Eyes

Keywords:

Visual snow, visual snow syndrome

More Information

Description: The proposed research will measure and compare differences in visual performance and associated neural processing in participants who do or do not experience Visual Snow Syndrome, using a series of well-established psychophysical and imaging paradigms.
