

Improving Spinal Cord Stimulation with ECAP

Status: Recruiting

Eligibility Criteria

Age: 18 years and over

This study is NOT accepting healthy

Healthy Volunteers: volunteers

Inclusion Criteria:

- medically stable as determined by the principal investigator - scheduled to have external spinal cord stimulation - English-speaking

Exclusion Criteria:

- scheduled for permanent implantation without an external trial - have a pacemakers or other neurostimulators - women who are pregnant

Conditions & Interventions

Conditions:

Bone, Joint & Muscle, Brain & Nervous System

Keywords:

Pain, Spinal Cord Stimulation

More Information

Description: The purpose of this study will be to investigate the optimization of spinal cord stimulation with ECAPs in patients with spinal cord implants.
