

## Improving Spinal Cord Stimulation with ECAP

Status: Recruiting

## Eligibility Criteria

Age: 18 years and over

This study is NOT accepting healthy

Healthy Volunteers: volunteers

#### Inclusion Criteria:

- medically stable as determined by the principal investigator - scheduled to have external spinal cord stimulation - English-speaking

#### **Exclusion Criteria:**

- scheduled for permanent implantation without an external trial - have a pacemakers or other neurostimulators - women who are pregnant

# Conditions & Interventions

Conditions: Bone, Joint & Muscle, Brain & Nervous System Keywords: Pain, Spinal Cord Stimulation

### More Information

Description: The purpose of this study will be to investigate the optimization of spinal cord stimulation with ECAPs in patients with spinal cord implants. Contact(s): Matthew Maple - maple036@umn.edu Principal Investigator: David Darrow IRB Number: STUDY00013100

System ID: 34222
